Withdrawals of earnings will be subject to income tax and may be subject to a 10% IRS penalty tax if taken prior to age 59½. An annuity contract may be purchased on a non-qualified basis or for use within certain qualified retirement plans or arrangements that receive favorable tax treatment. Many of these qualified plans, including IRAs, provide the same type of tax-deferral as provided by an annuity contract, and the annuity contract does not provide any additional tax-deferral benefit. An annuity contract, however, does provide a number of other benefits and features not provided by such retirement plans or arrangements alone. Consult with a qualified tax and/or financial professional regarding the use of an annuity contract within a qualified plan or in connection with other employee benefit plans or arrangements.
